GoToMeeting connector for Creatio set-up guide.

1. Log in in your GoTo account

2. Open GoTo OAuth clients manager in browser (https://developer.logmeininc.com/clients)

GOTO Deve	lopers	Product APIs	OAuth Clients			0
					GET STARTED Ready to create your furst client? Create client credentials for your development projects . Browse the Product APIs . Learn about OAuth Create a client	

3. Create new client\

Set any client name (for example, Creatio connector)

Paste new Redirect URI and click Add.

Redirect URI template: [YOUR_CREATIO_ADRESS]/0/rest/OmniGoToAuthService/AuthCallback

Example: https://mycreatiodomain.com/0/rest/OmniGoToAuthService/AuthCallback

GOTO Developers Product APIs	OAuth Clients		0
← All clients		Create client	
		Details Scopes Credentials	
		Creatio connector	
		Description (optional)	
		Refrect UBb After authorization: the user, along with the access token or authorization code, returns to these pages (see, http://www.example.com):	
		https://mycreatiodomain.com/0/rest/OmniGoToAuthService/A + Add	
		Next	

4. In Scopes list, tick the GoToMeeting option

GOTO Developers Product APIs OAuth Clients		
← All clients	Create client	
	Details Scopes Credentials	
	Select the scopes this client will need to request. The user granting access will need those product or admin privileges.	
	Profile For an authenticated user	
	Get user information	
	GoToMeeting, GoToWebinar, or GoToTraining To create, start, and modify sestions for reense collaboration. [collab.]	
	GoToAssist Remote Support or Service Desk	
	SCIM For automated user management. [identify-usins.org]	
	Admin Center	
	GoToConnect	

5. Client secret is not used by connector, so it can be skipped. We need to save only the Client ID

GOTO Developers Product	APIs OAuth Clients			
← All clients		Create client		
		Details Scopes	Credentials	
		Client ID		
		776b7c04-17f2-4c61-8cf6-8	Сору	
		Client secret The client secret can only be shown once. You will nee	d to store it.	
		yuo	Га сору	
		□ I have stored the client secret		
		Done		

6. Result should look like this

GioTo	Developers	Product APIs	OAuth Clients		0 📭
				Creatio connector Case Created January 24, 2023 No description Redesc1 Ulfis ///rest/OmniGoToAuthService/AuthCallback Scops Profe(1 of 2] GoloMeeting, GoloWebinar, or GoloTraining Client D 776/704-1772-4c61	
				+ Create a new client	

7. Copy and paste Client ID to System setting "GoToMeeting Client ID" in Creatio

≡	• + <	GoToMeeting Client ID
