1. Document Info

Software Release:	V1.0
Author:	Psiog Digital, Pvt Ltd, innovations@psio.com
Last Edited:	Feb 14, 2024
File Name:	Psiog File Viewer for Creatio Documentation

2. Revision History

S No	Date of Modification	Change Made
1	14 Feb 2024	Document V1

3. Purpose

This document intends to provide functional details regarding the File Viewer Add-on with the primary objective of aiding Creatio users in gaining a thorough understanding of its functionalities.

4. Plug-in Information

The File Viewer Add-on is designed to facilitate the viewing of Attachments in Creatio. This plug-in enables users to view files that have been added to attachments within Freedom UI sections in the Creatio platform without the need to download them.

5. Build Information

S No	Particular	Details
1	Version	1.0
2	Creatio Version Compatibility	8.0.0 +
3	Creatio Product	Across all products
4	Database	Postgres, MS SQL
5	Operating System	Windows 10
6	Platform	.NET Framework 4.7
7	Dependent Package	ProductCore
8	Environments supported	Cloud, On-Premise

6. Features

The File Viewer Add-on will enable users to view files from the Attachments of Freedom UI sections directly in the browser, without having the need to download them.

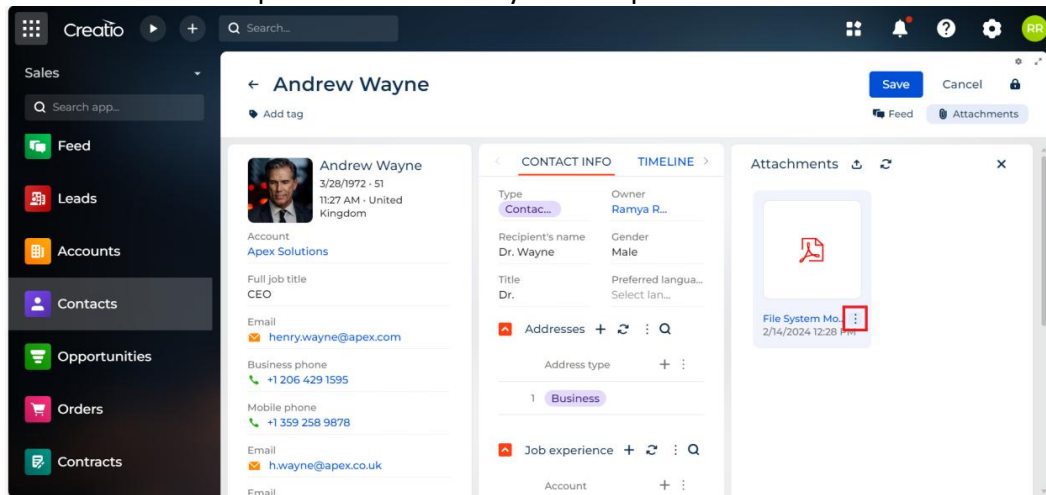

7. Control Points

1. Files from Classic UI Sections cannot be viewed.

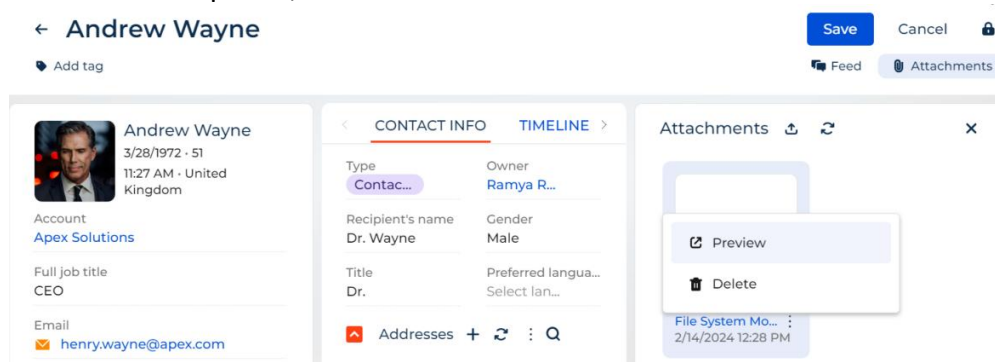

2. The add-on supports the viewing of files from the 'Attachments' of existing Freedom UI sections and new sections created with the default base form page.
3. The add-on will show a preview of the file only as long as the file format is supported for viewing in the browser. In case the file format is not supported, it will be downloaded.
4. Viewing of Office files (.docx, .xlsx, .pptx) is not supported
5. Supported file formats: .pdf, .jpeg, .png, .txt, .json, .svg, .ico, .gif, .mp3, .mp4, etc.

8. Walk-through

1. Navigate to "Attachments" in the form page of any Freedom UI Section in Creatio and click on the ellipsis icon next to any of the uploaded files.

2. From the menu options, select 'Preview'

3. This opens up a preview of the file on your browser
