

## Service request and ITAM for Creatio configuration guide

## Setting website URL

Before using the application, you must fill in the system setting "Website URL". To fill it out, you need to:

- Open the "System Designer";
- Go to the "System settings" section;
- Find the system setting named "Website URL";
- Fill the "Default value" field with a link to the Creatio website.

Q Search.		::	<u>۽</u>	?	٥	8
