Install Zoom Meetings connector for Creatio

Zoom Meetings connector for Creatio lets you add Creatio activities that have automatically generated links to Zoom online meetings. You can also synchronize meetings created in Zoom, receive a list of attendees, and store the meeting transcript (paid Zoom license only) to generate a summary using Copilot.

The app has the following key features:

- Create a Zoom online meeting for new or existing Creatio activities.
- Set up the base Zoom meeting parameters in Creatio.
- Transfer the index of attendees from Zoom to Creatio after the meeting ends.
- Store the meeting transcript to generate a summary through Copilot
- Create Zoom meetings from business processes.

Connect Zoom to Creatio

Create Zoom API keys and add them to Creatio

Note. The setup part must be executed on behalf of the user included in "System administrator" role.

If Zoom Revenue Accelerator connector for Creatio is already configured for the current Creatio website, extend the number of scopes from step #9 and webhook events from step #15 only. At the end, re-authenticate all users that must receive new scopes (step #22).

- 1. Open the Zoom App Marketplace: <u>https://marketplace.zoom.us/</u>
- 2. Open the [*Develop*] block in the top right \rightarrow [*Build App*].

- 3. Select "General app".
- 4. Enter an arbitrary name of the integration in the [*Name*] field in the top left. For example, "Creatio app."
- 5. Make sure the app will not be published on Zoom App Marketplace and is marked as *"User-managed"*.
- 6. Enter the redirect URL of the Zoom connector in the [*OAuth Redirect URL*] field. Use the following format: <u>https://sitename.domain.com</u>
- 7. Enter the same URL in the [Add allow list] field.
- 8. Go to the [Scopes] tab \rightarrow [Add Scopes].
- 9. Select and apply the following scopes:

Scope	Description		
Meeting			
meeting:read:meeting	View a user's meetings		
monting readilist past participants	View a past meeting's		
Theeting.read.list_past_participants	participants		
meeting:delete:meeting	Delete a meeting		
monting	Create a meeting for a		
meeting.write.meeting	user		
meeting:update:meeting	Update a meeting		
Recording			
cloud_recording:read:recording	View a recording		
cloud recording readilist recording files	Returns all of a meeting's		
cloud_recording.read.list_recording_liles	recordings		
User			
user:read:user	View a user		

- 10. Go to the [Access] tab and activate [Event Subscription] block.
- 11. Click [Add New Event Subscription].
- 12. Select the "Webhook" Webhook Method .
- 13. Enter an arbitrary name of the integration in the [*Subscription name*] field.
- 14. Click [Add Events].
- 15. Add the following necessary events:
 - I. *"Meeting"* type
 - Start meeting.
 - End meeting.
 - Meeting has been created.
 - Meeting has been updated.
 - Meeting has been deleted.
 - II. "Recording" type
 - Recordings Transcript files have completed.
- 16. Fill out the *"Event notification endpoint URL"* field before saving. To receive the URL:
 - I. Open Creatio
 - II. Go to the [*Webhooks*] section.
 - III. Open the [Help] tab \rightarrow "Webhook URL."
 - IV. Get the Webhook URL. To do this, click "Zoom" \rightarrow "Click to get your Webhook URL".

Webhook URL is copied automatically. Do not close this page.

- 17. Come back to Zoom App settings and fill out the *"Event notification endpoint URL"* field using copied value.
- 18. Save the settings.
- 19. Fill out the settings in Creatio using corresponding values from Zoom settings:
 - I. Copy the "Secret Token" value and paste it in Creatio into the "Zoom webhook secret token" field on the "Access" tab.
 - II. Copy the "*Client Id*" value on the left and paste it in Creatio into the "*Zoom client Id*" field.
 - III. Copy the "Client secret" value on the left and paste it in Creatio into the "Zoom client secret" field.

System settings		Zoom client secret						

- 20. Save your OAuth configuration.
- 21. Click "*Authenticate in Zoom*" and follow the instructions until the end.
- 22. Users that do not have the "System administrator" role must proceed with the authentication by following these steps:
 - I. Click 🐺 to open the System Designer.

II. Go to the [*Import and integration*] block \rightarrow [*Connect to Zoom*] and follow the instructions until the end.

If you want to stop the processing of all incoming webhooks from ZRA turn off the "Zoom. Enable meeting synchronization" ("MrktZoomEnableMeetingSync" code) system setting.

Create a Zoom meeting from Creatio

Note. You can create a meeting from an activity only if you connect a Zoom account to Creatio.

[*Tasks*] and [*Calendar*] sections are available only with <u>Productivity app</u>.

- 1. Open the [*Tasks*] or [*Calendar*] section.
- 2. Click [*New*]. This opens a window.
- 3. Fill out the required fields and select "Zoom" in the [*Meeting platform*] field:

Zoom meeting	* ک
Subject * Zoom meeting	O
Start * 10/22/2024 6:27 PM	Due * 10/22/2024 6:27 PM
Category * To do	
Status * Not started	
Owner Supervisor	
Meeting platform Zoom	
✓ Show in calendar	
	Cancel Save

As a result, Creatio will save the record and add a Zoom meeting link. View the link in the [*Join URL*] record field of the [*Zoom*] tab.

Set up the meeting parameters

You can set up the base Zoom meeting parameters.

To do this, go to the [*Zoom*] tab of the activity page. View the index of editable parameters below.

Parameter	Description
Password	Meeting password that participants
	without an invite link must enter.
Participants video	Whether to enable the video feed of all
	participants automatically when they join
	the meeting. The participants can toggle
	the video feed later.
Host video	Whether to start meetings with the host's
	video on. The host can toggle the video
	feed later.
Mute upon entry	Whether to mute all participants
	automatically when they join the
	meeting. The participants can toggle the
	audio feed later.
Waiting room	How to let participants into the meeting.
	The host can admit attendees one by
	one, or hold all attendees in the Waiting
	Room and admit them all at once.
Auto recording in cloud	Whether to start local or cloud recording
	automatically when the meeting starts.

Meeting parameters are bound to the corresponding system settings. You can change the default parameter values by editing the settings.

Import the attendee index and transcript after the meeting ends

After the meeting ends, you can import the index of attendees to Creatio.
