

# CRMiUM

SELECTION • INTEGRATION • CARE

## WHO WE ARE

the first multisystem  
integrator of **CRM, ERP, HRM**  
solutions

CRMiUM is the only integrator who does not impose one CRM system, but **selects exactly the one that best suits the tasks** of client's business.

We **get rid of the unnecessary** and then we **implement the important**. This phrase perfectly describes the CRMiUM approach.

Above all we are business analysts and consultants. Our team will suggest you initial points, then set priorities and automate business processes.

We select, implement, consult and support. We solve business problems and **help growing via business automation in complex**.

**“CRMiUM - Selection. Integration. Care.”**
